Roblox cannot afford to go down the path of Farmville. They need to remain an open source program for everyone, where people can come together as equals and play fun games without being forced to pay money to be able to continue having fun within their virtual world. People who think they can't afford to pay should just get used to not having an ROBLOX account because that's what's happening. People are being kicked off the server by player banning.

As of 2021, ROBLOX does not require end-users to use their own search engine to find games.[18] This is bad as some users search for objects such as skins and items instead of games. This can lead to confusion because they may get a game search that directs them to user's profiles instead.

On May 24th 2021, ROBLOX announced another update for their Studio 2.1 version. This update, known as "Studio 2.1.1", was released to the public on May 31st 2021.[98] Like many other platforms, ROBLOX also has an adult chat system. This is usually used by roleplayers and other users who wish to talk about mature topics freely. However, players have abused this feature by advertising Roblox pornography websites or trolling innocent users.[99] Some users have also used the system to claim that their username is "Not suitable for children" or use inappropriate usernames in order to get attention from others.[100] It is unknown whether ROBLOX will ever remove this feature from their platform.

Roblox was launched as a free download with the name of ROBLOX Studio on April 15, 2021. [131] Paintball There is a video that shows how to play this game. It consists of two players and two teams. The players try to hit a ball with their guns passed through the paintball-covered targets, and the team that hits the ball through all the targets wins. Grand Theft Auto V ROBLOX was compared with this game because it has similarities with it: it allows players to create their own cities, where users can place art, buildings, houses, vehicles and people. Users have survival games they play in order for them to find loot and obtain materials needed to survive outside of their city(s). ROBLOX is similar to Minecraft because both games are created by the same company. Gamers in ROBLOX can use Minecraft-like blocks to build anything they want. [133]

When one makes inappropriate content in Roblox-like swearing in their username or wearing inappropriate clothing they are roleplaying as an adult - the creators aren't doing anything about it. There are moderators but there should be more because some do not care about these problems or do not log on to Roblox at all times.

ROBLOX has also been compared to popular game Minecraft. In many ways, they are similar; both games have been developed by one company (Tencent) and are usually sold on the same platform (Windows, OS X, iOS, Android). Another close similarity is that they both have their own in-game currency system. However, Minecraft has a different style of gameplay relating to platforming; while ROBLOX players build and destroy using building blocks, Minecraft players explore a world.

I love roblox because it is filled with amazing games. Also, I think it needs more easy to download games and more new games. There are lots of great players that are making great games but they feel unappreciated because if there is a new update some other player comes onto their game and steals their ideas so that doesn't make them happy. I also think that there should be easier ways for players to get to private chat or opt out of chat but not everyone would like being in a public chat room which would only make them mad. I like being in a private chat room with my friends because no one else can get into the room and report us for saying bad words.
