The merger began on March 11 with servers down for two hours beginning at 5 am Pacific Time (8:00 UTC). This was followed by two more short downtimes on March 17 and March 26 before all character transfers were completed. The merger of servers resulted in the creation of a single player vs. player server and a single role-playing server. The role-playing server was created to stop the underpopulated game world from splitting into two more servers.[62]

This game was very simple; all you had to do was buy a hotel and look after your guests. As time went on, my friends and I found a new game we wanted to play together (Battlefield 3). It was similar to Call of Duty with better graphics. We liked the game so much that we wanted to transfer our characters from Hotel Tycoon 2 into Battlefield 3. One night, my friend and I were playing on roblox and entered into a "lobby". In a lobby, you can find friends who are online playing games or creating new ones. We had two other friends join in and we started talking about which game we wanted to play together. The next day we all decided on Robloxian Life.

One of the most popular ROBLOX games was "Hacker Escape", which was one of the most visited blogs on ROBLOX prior to 2021. It was a game where the hacker got into an abandoned house, and used numerous exploits to obtain admin privileges, allowing him/her to modify certain aspects of the game. This blog caused heavy controversy in 2021 because it allowed hackers to manipulate and change the settings on their games without consent from ROBLOX. However, after the release of version 1.0, this blog became outdated because developers started using hacks in their games that had not been discovered yet. In May 2021, ROBLOX launched a new blog system to replace the previous one, this paid-for feature was created by Epic Events Inc.
