No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

I just wanted to let the readers know that Roblox is not a bad thing for children to play. It teaches them a lot of skills that will help them in the future. It teaches them how to be helpful, creative, and patient. I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where i spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game!
