ROBLOX is built upon a custom system that includes its own scripting language and core programming languages. While it may not be true to say that all games on ROBLOX are made with ROBLOX's scripting language, this is true of the vast majority of games on the site. The scripting language is easy to learn, but more advanced scripting calls can be difficult to implement for users who do not know the syntax or do not have the time. This has led to many third-party solutions (modification of gameplay, ROBLOX engine modifications and others) being made by experienced users so that less experienced users can get a head start in the game development process.

Other things that need to be changed or fixed: Change the sound of the hook it is not loud enough and sometimes you can't hear it. So you just have to guess where the enemy is. Make an AMA thing just like Reddit but for developers so we can ask them questions and they will answer them. This will give players some more insight on why stuff isn't in game yet or why stuff is in game. It will also give players a chance to be more involved with the company and make them feel like they are actually doing something. This would also help with bug reports and glitches because then we could ask questions about what's happening and how to fix it.

- No clear guidelines as to how the game works. There is no tutorial on how to build things or what some items do.
