Hacking Roblox is a problem that will always exist. This is because there are many different forms of hacking that are constantly evolving. One of the most common methods of hacking Roblox accounts today is through phishing. This method involves an email being tailored to look like it came from a trusted sender to gain access to a person's account and information such as passwords, usernames, mother's maiden name, Robux balance, etc. Another way that hackers hack into Roblox accounts is through using proxy sites. This method involves people using websites that offer their own proxies in order to hide their inputs and output information from the public eyes. People can hack a password by using the obtained information from other websites and then use an automated script to guess the password. This method is not only used for Roblox, but also for other accounts that are associated with games.

Rated 5 out of 5 by Anonymous from The best game ever! ROBLOX is one of the greatest games I've ever played. It lets you make your own adventures with your friends or in single player mode! This game I'd give a 10/10 because you can build anything you want, and there are still many things to do. For example, if you're tired of building things, there are games to play on Roblox. You can be a police officer, a fire fighter, or even an architect! Roblox is a truly awesome game that needs to be experienced!

The servers would become infested with bots, cheats, hackers and other fraudulent activities that it slowed the game for everyone. These servers have since been taken down and ROBLOX has removed as much of these malicious players' information as they could.[27]

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.
