When they are in a group with someone who they hate and they click the chat head and they try to type something and it doesn't show up. I know that there should be a way for them to see what they were typing but there is not. That's the only thing that bugs me about this bug because it makes people mad. The American Federation of Television and Radio Artists (AFTRA) has demanded that Roblox includes their members. The union stated that they also want their actors to get compensation for their work. The union has also said that they have been talking with Roblox for more than a year before singling out the company for bad housekeeping by refusing to pay royalties and residuals while claiming to "be building careers".

ROBLOX is built upon a custom system that includes its own scripting language and core programming languages. While it may not be true to say that all games on ROBLOX are made with ROBLOX's scripting language, this is true of the vast majority of games on the site. The scripting language is easy to learn, but more advanced scripting calls can be difficult to implement for users who do not know the syntax or do not have the time. This has led to many third-party solutions (modification of gameplay, ROBLOX engine modifications and others) being made by experienced users so that less experienced users can get a head start in the game development process.

ROBLOX allows users to design avatars for themselves and use them in games. ROBLOX also provides users with tools that help them create a variety of designs for their characters which they can upload on the website to share with others. On January 30, 2021, ROBLOX launched an app that allows users to buy hats, shirts and pants for their characters. This is another first-of-its-kind feature on the app store as many apps do not allow people to buy virtual goods like hats or shirts. ROBLOX allows players to make full custom outfits for their avatar character that can be purchased with virtual currency via the app store by linking your account with paypal when purchasing.

On April 6, 2021, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2021 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

Roblox is a very fun game platform for kids because they can create their own worlds and game scenarios with a lot of mini-games and activities such as playing sports and fighting monsters. Roblox also has many free platforms that have educational purposes which mostly focus on teaching kids about problem solving, teamwork, learning how to share with others and other social issues.
