I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games.

The community is somewhat mature. As far as social media goes, I do not personally think that Roblox holds much of a candle in terms of maturity when compared to the likes of Twitter or Facebook - but it certainly does not have the childish undertone that you would find on other sites such as Instagram or Snapchat either. It has a decent kid-friendly community that is mostly neutral.

HelloRoblox2 works in almost the same way as HelloRoblox. It sends you robux once you've uploaded a video on YouTube. However, there is a slight difference. HelloRoblox2 has been around for a while, and because of this, the robux it can send are easier to get. It generally only sends out 100-200 robux per day. This works out to about 1 free robux per week. If you're in a hurry, HelloRoblox2 is probably better than HelloRoblox.

ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2021 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

Roblox has been criticized for allowing other companies to make games on their site such as "Mining Simulator", which is a game that contains copyrighted material from BeamNG.drive, and "Brain Simulator", which is a clear clone of Brain Cube (which was also created by the same person who created Brain Simulator), and copyrighted material from several other games such as Robloxian Highschool and Backyard Zombies.

There are a few different types of games you can play on roblox; however, the most popular type of game is called Robloxian Life (RL). In RL, you can create your own avatar with different types of clothing and hair to customize it. You then pick a place for your person to live and earn money to buy more food and other items.
