Roblox could be better in one way by adding new games. I saw that tons of people were posting on the forum that they want a new game to play not a great way to spend your time, like if the game was updated and you can play it again, or just say your opinion about what you would like to see in the next update because there are many gamemakers that ask for ideas on a game app idea. or have a contest for ideas.

They also threatened to kidnap staff members and steal their hair if ROBLOX declined their offer. According to Roblox, this group caused 3.7 million dollars worth of damage.[103] The group also began sabotaging ROBLOX's YouTube channel by uploading offensive videos and ads towards users who clicked on it, which caused the platform to ban the channel in July 2021.

The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you

have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!

Robux. Robux is the currency of roblox that can be purchased with real money, although there are also other ways to receive them within the system of roblox itself. The way they work is very simple - you can use Robux to purchase in-game items, such as clothes for your character or even full-on animations such as dances and others. This adds a form of virtual economy to the game which adds depth and meaning into it - although the impact of the impact that this has on the game can be debated heavily depending on who you talk to. This means that, while there is a sense of the possibility of winning content within the game - there is no chance of getting content without paying for it.
