Rated 5 out of 5 by Anonymous from Fun on Roblox Being able to build your own game with your friends on roblox is awesome. You can build anything you want including houses, cars and even animals. It will take a little while though but in the end it'll be enjoyable!

The community is somewhat mature. As far as social media goes, I do not personally think that roblox holds much of a candle in terms of maturity when compared to the likes of Twitter or Facebook - but it certainly does not have the childish undertone that you would find on other sites such as Instagram or snapchat either. It has a decent kid-friendly community that is mostly neutral.

ROBLOX has also been compared to popular game Minecraft. In many ways, they are similar; both games have been developed by one company (Tencent) and are usually sold on the same platform (Windows, OS X, iOS, Android). Another close similarity is that they both have their own in-game currency system. However, Minecraft has a different style of gameplay relating to platforming; while ROBLOX players build and destroy using building blocks, Minecraft players explore a world.

Hacking Roblox is a problem that will always exist. This is because there are many different forms of hacking that are constantly evolving. One of the most common methods of hacking Roblox accounts today is through phishing. This method involves an email being tailored to look like it came from a trusted sender to gain access to a person's account and information such as passwords, usernames, mother's maiden name, Robux balance, etc. Another way that hackers hack into Roblox accounts is through using proxy sites. This method involves people using websites that offer their own proxies in order to hide their inputs and output information from the public eyes. People can hack a password by using the obtained information from other websites and then use an automated script to guess the password. This method is not only used for Roblox, but also for other accounts that are associated with games.
