This is extremely annoying because you need to refresh the page and play all over again, but this usually happens when you are about to win.

On September 10th, 2021, Roblox introduced a new 'Creative' game mode. It is an improved version of the current 'Build' mode where there are more blocks to build with and the ability to save your progress at any time.[105]

ROBLOX provides a feature that allows the user to build on their own server using ROBLOX Studio and upload it to their own server. This feature enables them to remove things that they don't like or people who break the rules and get banned from their creations. They can also control who enters their games. This also allows them to advertise their channels by making a game with a name similar to other popular games. However, this feature has many rules that the users must follow to keep their servers running smoothly. For example, they cannot advertise any kind of website or give out personal information about themselves.

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.

This update, known as "Studio 2.1.1", was released to the public on May 31st 2021.[98] Like many other platforms, ROBLOX also has an adult chat system.
